## Water Backup

the total amount an insurance company will pay out to rebuild or repair your home!

**Tip:** Insure the total rebuild of your home and add an inexpensive dwelling extension to ensure you are never under covered.

## DEDUCTIBLE

the total amount an insured is responsible for out of pocket before an insurance carrier begins to pay.

**Tip:** Purchase a fixed deductible rather than a percentage so it remains level over the years.

## Filing a Claim

### First, Consider:

1. Is my damage more than my deductible?
2. Will this claim increase my rates more than the financial benefit?

### Steps:

1. Prevent further damage.
2. Contact your insurance carrier.
3. File Claim.
4. Insurance company inspection
5. Receive Estimate.
6. Make repairs.

### Steps to Getting Coverage

## PERSONAL PROPERTY

the total amount an insurance company will pay for your personal items like your furniture, clothing, electronics and others.

**Tip:** Add scheduled coverage for your expensive items since policies can have category limits.

**Tip:** Make sure your contents are insured on a replacement cost basis so no depreciation is taken from your payout.

## Replacement Cost vs ACV

**Replacement cost** pays out the amount needed to replace the item.

**ACV** pays the cost to replace the items less depreciation.

**Tip:** Pay a few dollars more per month to protect your property with a better payout method.

## LIABILITY

the total amount an insurance company will pay for bodily injury sustained to others that you are responsible for.

**Tip:** Purchasing up to 500,000 can be very inexpensive. Consider purchasing up from the level you are comfortable with so you can grow into that coverage.

## SCHEDULED PERSONAL PROPERTY

**While the homeowners policy includes** personal property, it limits certain categories like jewelry, art work, antiques and more.

**Tip:** To avoid the limits, schedule high value items onto the policy.
